NOSTR AFRICA · CUSTOMER GUIDE

AI Training Data Collection and Annotation

Collection and annotation of training data, including egocentric first-person video.

nostr.africa · Updated November 2026

Nostr Africa collects and annotates data used to train AI systems. This includes **egocentric, first-person video** through **Kapca**, the collection system Nostr Africa runs, as well as other data collection and labeling work.

PARTNERS

We partner with Micro1 and Verlet Robotics. Nostr Africa is a Claru supplier partner.

1 What this service covers

- **Egocentric / first-person video collection** using Kapca, the system Nostr Africa runs for this work.
- **Data collection** for AI training, agreed with you for a specific project.
- **Annotation and labeling** of collected data so it can be used to train models.

The exact scope, format and delivery of a project are agreed with you directly. This guide does not list prices, volumes or client names.

2 How to enquire

NO PUBLIC SIGN-UP

There is no self-serve portal for this service. To discuss a project, contact Nostr Africa using the details below.

1. Open **Book A Call** at crm.nostr.africa/book/general and pick a time, or email info@nostr.africa, or WhatsApp **+250 787 176 382**.
2. Tell us what kind of data you need collected or annotated (for example first-person video, or another format you already have in mind).
3. We will follow up to agree whether we can help and, if so, the scope of the work.

3 Good to know

PLEASE READ

This page is a short overview of the service, not a technical specification and not a contract. We do not publish a client list or performance claims here. Kapca is the collection system Nostr Africa runs; it is not offered as a public self-serve product from this guide.

RELATED PAGES

The service is also described on the Nostr Africa home page and on Services.
