

Getting started with Nostr Africa Cloud

Private cloud storage: sync, share and edit your files in the browser.

cloud.nostr.africa · Updated October 2026

Nostr Africa Cloud is private cloud storage for your files, on our own servers. Sync files across your devices, share them with a link, and open Word, Excel and PowerPoint files in your browser.

In short

1 Choose a plan

2 Pay

3 Get your signup code

4 Create your account

5 Upload, share & sync

1 Choose a plan

Plan	Storage	Price	Included
Basic	50 GB	\$3 / month	Web, desktop & mobile sync apps; share files and folders by link
Plus	200 GB	\$6 / month	Everything in Basic, with room for large media libraries
Pro	1 TB	\$15 / month	Everything in Basic, plus priority support by WhatsApp & email

Prices as listed at cloud.nostr.africa/pricing in October 2026. Plans are monthly and renewed manually; we contact you before renewal.

2 Pay and get your signup code

Signup is by invite code: you get a one-time code after paying.

Option A: pay with Nostr Pay (Bitcoin Lightning)

1. Open cloud.nostr.africa/pricing, enter your email under the plan you want and click [Pay with Nostr Pay \(Lightning\)](#).
2. Scan the QR code with any Lightning wallet and pay. The invoice is valid for 1 hour.
3. When the payment is received, the page shows your **one-time signup code**.

Option B: pay another way

Click [Pay another way / contact me](#) or contact us on WhatsApp or email. After payment we send you your signup code.

YOUR CODE

The code is for one use only and is valid for **7 days**. Save it until you have created your account.

3 Create your account

1. Go to cloud.nostr.africa/signup (or click [Create my account](#) after paying).
2. Enter your **Invite code**, full name, email and a password (at least 8 characters), and confirm the password.

- Click **Sign up**. You will see that your account was created with your storage amount. Click **Log in now**.

4 Use Cloud in your browser

- **Libraries and folders:** your files live in libraries (top-level folders). Create a library, then add folders and files.
- **Upload:** use the upload button, or drag and drop files into the browser window.
- **Edit Office files online:** click a Word, Excel or PowerPoint file to open and edit it in the browser.
- **Share by link:** share a file or folder with a link, with an optional password and expiry date.
- **File history and trash:** restore earlier versions of a file and recover deleted files from the trash.

5 Sync your computer and phone

1. Install the free **Seafile** apps: desktop apps for Windows, macOS and Linux, and mobile apps for Android and iPhone.
2. When the app asks for a server, enter <https://cloud.nostr.africa>.
3. Sign in with your Cloud email and password and choose which libraries to sync.

6 Storage, upgrades and renewals

- Every account has its own storage limit (50 GB, 200 GB or 1 TB).
- Need more space? Contact us and we will raise your storage limit.
- Renewal is manual: we contact you before your month ends.

GOOD PRACTICE

Use a strong password that you do not use elsewhere, and set passwords and expiry dates on share links for private files. For files you cannot afford to lose, keep a second copy somewhere else as well.
