

Buying and installing an Expert Advisor

Buy an EA on ea.nostr.africa, activate your licence and run it in MetaTrader 4.

ea.nostr.africa · Updated October 2026

RISK WARNING

Trading involves substantial risk of loss. Expert Advisors do not guarantee profits, and grid/martingale EAs can lose the whole account. Always test on a **demo account** first and only trade money you can afford to lose.

In short

- 1 Create an account
- 2 Buy a plan
- 3 Pay & enter the reference
- 4 Bind your MT4 account
- 5 Download the EA
- 6 Install in MT4
- 7 Allow WebRequest
- 8 Attach & paste your key

1 What you need

- MetaTrader 4 (MT4) installed on a computer or VPS that stays switched on and connected while the EA trades.
- A trading account with your broker (demo or live), and its account number and server name.
- An account on ea.nostr.africa.

CURRENTLY AVAILABLE

Mugisha Jean Einstein EA v1.01: an automated MT4 grid/martingale basket EA for M5 charts. Monthly plan, licence for **1 MetaTrader account**. The current price is shown on the product page (USD 26 per month in October 2026). Read the product description and risk note before buying.

2 Create your account

1. On ea.nostr.africa, click **Create account** and enter your name, email and a password (at least 10 characters).
2. Verify your email using the link we send you.
3. New accounts are reviewed by an administrator after email verification. Once approved, you can sign in and buy.

3 Buy and pay

1. Open the EA from the home page (**View details**), read the description, and click **Buy** under the plan.
2. The **Checkout** page shows your order number and the amount.
3. Contact us on WhatsApp **+250 787 176 382** or email **jmugisha789@gmail.com** for the payment details (mobile money or bank transfer), mentioning your order number.
4. Pay, then enter your **Transaction reference / ID** on the checkout page and click **Submit payment reference**.

5. An administrator confirms that the money arrived. You then receive the email **“Your EA licence is active”**.

4 Copy your key and bind your MT4 account

1. Sign in and open **Dashboard (My licences)**. Your licence key looks like **EA-XXXXXX-XXXXX-XXXXX-XXXXX**. Click **Copy**.
2. Under the licence, enter your MT4 **account number** and the **broker server** name **exactly** as MT4 shows it (File > Login, or the Navigator window), choose **MT4** and **DEMO** or **LIVE**, then click **Bind account**.

The key only works on the account bound to it. To move the licence to another account later, use **Request account transfer** in the dashboard; an administrator reviews each request.

5 Download and install the EA in MT4

1. In the dashboard, under **Downloads**, download the **.ex4** file. Downloads are available while your licence is active.
2. In MT4, click **File > Open Data Folder**, open **MQL4 > Experts** and copy the file there.
3. Restart MT4, or right-click **Expert Advisors** in the Navigator and choose **Refresh**.

6 Allow the licence check (WebRequest)

The EA checks its licence with our server, so MT4 must be allowed to contact it:

1. In MT4 open **Tools > Options > Expert Advisors**.
2. Tick **Allow WebRequest for listed URL** and add **https://ea.nostr.africa**. Click **OK**.

7 Attach the EA and start

1. Open the chart the EA is designed for (M5 timeframe, a pair recommended in the product description).
2. Drag the EA from the Navigator onto the chart.
3. In the **Inputs** tab, paste your key into **LicenceKey**. In the **Common** tab, allow live trading.
4. Turn on **AutoTrading** in the MT4 toolbar.
5. The chart comment should show **“Licence OK, valid until ...”**. The Experts log also shows the licence result.

IF THE INTERNET DROPS

If our server cannot be reached, the EA keeps running on its last verified licence for a limited offline grace period (up to 72 hours), never beyond your subscription end date. Whenever the licence is not valid, the EA opens **no new trades** but keeps managing the take-profit of trades that are already open.

8 Renewing

Order the same plan again from the product page before your end date, pay and enter the reference. After approval your end date moves forward and the **same key keeps working**. Customers also get a reminder email shortly before the end date.

9 Troubleshooting

Message on the chart / Experts log	What it means	What to do
Enter your licence key in the LicenceKey input	Key missing or too short	Paste the key from the dashboard into Inputs
Licence OK (offline grace until ...)	Server not reachable, using the saved approval	Check your internet and the WebRequest setting
Licence NOT_BOUND	This account/server is not bound to your licence	Bind it in the dashboard (check the server name exactly), or request a transfer
Licence EXPIRED	Your subscription has ended	Renew from the product page
Licence SUSPENDED / REVOKED	Stopped by the administrator	Contact us
Licence INVALID	Wrong key, or a key for a different EA	Copy the key for this EA again
WebRequest error 4060 / 4014	https://ea.nostr.africa is not allowed in MT4	Repeat step 6
HTTP 429 / 5xx	Too many checks, or a server problem	Wait and re-attach; contact us if it continues
Offline grace period ended	Offline for more than 72 hours	Restore the connection; the next check re-enables trading
Signature verification failed / does not match this account	The answer did not come from our server, or is for another account	Check your network, make sure you are logged in to the bound account, download the latest EA

Risk reminder: past results do not guarantee future results. Nostr Africa does not provide financial advice.
