

Getting started with Nostr Africa Hosting

Order, pay for and manage your managed WordPress website.

hosting.nostr.africa · Updated October 2026

Nostr Africa Hosting gives you your own WordPress website with free SSL (https) and an address like **yourname.hosting.nostr.africa**. This guide takes you from creating an account to logging in to your new site.

In short

- 1 Create an account
- 2 Wait for approval
- 3 Order a site & plan
- 4 Pay & enter the reference
- 5 Site is set up
- 6 Log in to WordPress

1 Choose a plan

All plans are monthly, priced in Rwandan francs, and include one WordPress website with free SSL.

Plan	Price per month	Disk space	Memory	Own domains
Starter	RWF 5,000	5 GB	512 MB	1
Business	RWF 12,000	15 GB	768 MB	2
Pro	RWF 25,000	30 GB	1 GB	3

Prices and specifications as shown on hosting.nostr.africa in October 2026. The amount on your invoice is the amount to pay.

2 Create your account

1. Go to **hosting.nostr.africa** and click **Sign up**.
2. Enter your full name, email address and a password (at least 10 characters, with an upper-case letter, a lower-case letter and a number).
3. Open the verification email we send you and click the link.
4. **Wait for approval.** New accounts are reviewed by our team, and we email you once yours is approved. Until then, signing in shows a message that your account is awaiting approval.

3 Order your website

1. Sign in and click **Order hosting** in the menu.
2. **Choose your site address:** type a short name (for example **myshop**) and click **Check**. Your site will be at **myshop.hosting.nostr.africa**.
3. **Own domain (optional):** if you already own a domain such as example.com, enter it under "Have your own domain?". You can also connect a domain later.
4. Click **Order** on the plan you want. Your invoice opens, with an invoice number (for example NA-2026-000123).

4 Pay by MTN MoMo or bank transfer

Payments are made by mobile money or bank transfer and checked by our team.

1. **Get the payment details:** contact us on WhatsApp **+250 787 176 382** or email **jmugisha789@gmail.com**, quoting your invoice number. We send you the MoMo number or bank account to pay to.
2. **Pay exactly the invoice amount.** If you can, use the invoice number as the payment reference or message.
3. Back on the invoice page, enter the **transaction ID** from your MoMo SMS or bank receipt in **Transaction ID / reference** and click **Submit payment reference**.
4. We check that the money has arrived and approve the payment. **Your website is then set up automatically.**

GOOD TO KNOW

Card and online payments are not available yet. Because payments are checked by a person, approval is not instant. If you have not heard from us, send your invoice number on WhatsApp.

5 Follow the setup

Click **Websites** and then your site address. Before payment is verified the site shows as **reserved**. After approval you can watch the progress:

Reserving server space

Creating database

Installing WordPress

Connecting your address

Getting SSL certificate

Final checks

When everything is ready the page shows **"Your site is live"**, with links to your site and to the WordPress admin.

6 Your first WordPress login

1. On your site page, click **Show my WordPress login**.
2. The username and password are shown **only once**. Save them somewhere safe, such as a password manager.
3. Open the WordPress admin link and sign in. You will be asked to choose a new password the first time.

Lost your password later? Use **"Lost your password?"** on your WordPress login page.

7 Managing your account

Menu	What you can do there
Dashboard	Overview of your account.
Websites	See your sites, their status and setup progress, open WordPress admin, and connect your own domain (section "Your own domain").
Order hosting	Order another website.
Billing	Your invoices, payments with their status, and subscription history.

YOUR OWN DOMAIN

To use an address like example.com, follow our separate guide **“How to connect your own domain”** (also on the Help page of hosting.nostr.africa and at nostr.africa/documentation). Your free .hosting.nostr.africa address keeps working.

KEEP YOUR OWN COPIES

Backups are not included in the hosting plans at the moment. Keep your own copies of important content, for example with a WordPress backup or export tool.

For renewals, plan changes or anything else about your subscription, contact us.
